

Dear Graduates,

Warmest congratulations on receiving your much-coveted diploma! I wish you good luck, further personal development, a bright professional career and the right people on your path. Such people who will be a support and inspiration for you all. May the coming years bring you all joy and fulfillment in your personal and professional life!

Prof. Katarzyna Ziemnicka MD, PhD
Former Director of CMEE

Professor
Katarzyna Ziemnicka, M.D., Ph.D.

Dear Graduates,

The best way to predict the future is to create it.
I am honored and very proud to congratulate you and present you with diplomas of graduation from Poznan University of Medical Sciences. You have finished your studies, and now you will start a new stage of life as physicians and dentists. You did it - bravo!

Let your dreams be bigger than your fears, your actions louder than your words, and your faith stronger than your feelings.

Be bold. Be courageous. Be your best!

Don't forget about PUMS and Poznań.

Good luck!

Assoc. Prof. Aleksandra Uruska MD, PhD
Director of CMEE

Assoc. Professor
Aleksandra Uruska, M.D., Ph.D.

POZNAN UNIVERSITY OF MEDICAL SCIENCES, POZNAN, POLAND

For over 100 years, we have been educating medical professionals, conducting research and providing the local community with quality health services. The history of PUMS dates back to the foundation of the University of Poznan in 1919. This is where the Medical Faculty was established in 1920, followed shortly by the inauguration of the Pharmacy and Dentistry Departments. The University of Poznan awarded its first Honorary Doctorate to 'Madame Curie' – Maria Skłodowska-Curie in 1922.

After a period of closure during World War II, the University of Poznan reopened in 1945. Five years later, all medical programs migrated to form a stand-alone HEI under the name of Medical Academy in Poznan.

In 1993 PUMS was the first school in Poland to launch its medical program taught in English and enrolled its first 14 full-time international students. The University opened Dentistry, Pharmacy and Physiotherapy Programs in English in the following years.

Since then, over 2,700 international alumni of PUMS have started their professional careers on all continents. Many of them have come to serve on the boards of professional and scientific associations, have been invited to serve as advisors to WHO and IAEA organizations, and have become outstanding clinical specialists and heads of hospital departments in Europe, North America, Asia, and elsewhere.

This year we are celebrating the 30th anniversary of the programs taught in English at our University. We are overjoyed to witness the graduation of yet another ambitious, inspired, and hard-working group of young medical professionals. We have the pleasure and honor to welcome you into the community of PUMS Alumni, among such distinguished graduates as Prof. Wiktor Dega, orthopedist and author of the Dega osteotomy, Dr. Wanda Bleńska, an international missionary worker who developed the leprosy treatment program in Uganda, or Prof. Maria Siemionow, surgeon and scientist, who lead the team that performed the first near-full face transplant.

This year's graduating class comprises of 186 doctors and dentists from 31 countries on four continents. We sincerely wish you success and happiness wherever you decide to pursue your careers, and we offer our long-standing support whenever you need it. You will always be welcome guests at PUMS, and we hope that Poznan will have a special place in your hearts for years to come.

We cordially invite you to stay in touch by registering with our alumni networking platform – PUMS Community Hub – at pumscommunity.com and by following the university social media channels. We will be happy to hear from you at alumni@ump.edu.pl – please do not hesitate to contact us with any formal matters or if you want to share your current professional achievements or simply reconnect with your classmates or faculty.

The next opportunity to visit Poznan is just around the corner – the Fall celebrations of the 30th anniversary of medical programs in English are planned for October 26-28, 2023, and will include an alumni reunion event. Please save the date and consider re-visiting us. Congratulations!

President of Poznan University of Medical Sciences

Professor
Andrzej Tykarski, M.D., Ph.D.

Vice - Rectors

Professor
